

# LAUNCH YOUR CAREER

AND EARN YOUR DEGREE AT THE SAME TIME WITH THE UNITED GRINDING APPRENTICESHIP PROGRAM.

Education is a wonderful thing, but often, it remains theoretical and doesn't give the opportunity to earn real-world experience on the subject at hand.

Well, at UNITED GRINDING North America, we wanted to do something about that. At our 4-year Apprenticeship Program, apprentices get high-quality education and practical application in the exciting and fast-growing field of automation and control technology.

## DON'T WAIT TO APPLY!

Your college scholarship—and your satisfying career—awaits. For more information on the apprenticeship and to apply, visit <https://www.grinding.com/apprenticeship/>.

## WHAT APPRENTICES GET

1. A full scholarship from Sinclair College in Dayton, Ohio to earn an Associate's Degree in Automation & Control Technology with Robotics AMCT.S.AAS (Mechatronics)
2. A full-time and well-compensated position at UNITED GRINDING North America in Miamisburg, Ohio, equipping apprentices with high-precision manufacturing skills and knowledge.

"We are proudly committed to technological innovation and fostering talent, and we recognize the importance of investing in the future workforce. The Apprenticeship Program not only provides an excellent educational foundation, but also offers apprentices the chance to earn a competitive salary and benefits while they learn."

- **Mr. Markus Stolmar, President and CEO of UNITED GRINDING North America**

# LAUNCH YOUR CAREER
